Joshua Snow – Night Photography Off the Deep End Parts 1 & 2: Join us for an immersive, two-part webinar where we delve into the art of capturing the night sky, covering everything from composition and settings to theory and execution!

In Part 1, we'll explore all the technical aspects, providing you with the essential tools and knowledge to master night sky photography. Topics include capturing Blue hour frames, noise reduction through stacking, blending images, creating Star Haze effects, and techniques like dodging and burning.

Part 2 is where the magic happens! Join Jess and me as we demonstrate our workflows through live edits. Watch as we apply our favourite techniques to enhance and transform images, sharing insights and tips along the way.

Whether a novice or a seasoned photographer, this webinar promises valuable insights and practical guidance to elevate your night sky photography skills. Don't miss out on this unique opportunity to learn from two experienced photographers and take your night sky photography to new heights!
