# 1 Point Perspective: How to do quick architectural sketches

2025-02-10 16:44:02　　label 我要反馈　　下载页面

How to do quick architectural sketches: Hello! I'm Laura who is an artist and architect located in Madrid. I'm glad to be sharing small things that will bring you happiness.

This class is designed for intermediate and beginners. I will give the tips I learned while working in architecture, such as drawing people and perspective with quick sketches. This class aims to give you the tools necessary to create rapid architectural drawings that help you be aware of your space.
