- 3 Willing to work demonstration included. Select among these, edit Information, and click leave for a quick consequence
- Exceptional flexibility and power capacities for deep editing
- CS5+ compatibility
- FullHD resolution
- Universal Expressions

QUICK START

0) Download and set up Nexa font.

1) Open the "elegant corp package.aep" file in After Effects.

2) You see 4 open compositions.

- Logo placeholder. Use this comp to place your logo. Do it in the beginning and forget about this composer or close it.
- Presentation #1 Core Comp. It's comp I have put all the shortened compositions. The intro video has been created by editing and rendering this comp.
- Presentation #2 Clean Corporate. This comp contains settings for a corporate presentation where you can edit the inside comp and create your own video.
- Presentation #3 Clean Corporate +Product. Here you can find a corporate + product (service) presentation.

3) Now you should choose 1 of 3 from the remaining comps. For example, you took Presentation #2 Clean Corporate. Open it and start building your own presentation.

4) You should open all the sandtone color comp and edit the content inside. Edit the text, replace the photos, and logos, edit graph values etc. A little below you will find a complete description of the settings of all provided comps.

5) You can choose any available comp in the Scenes folder. Simply drag it on the timeline, and adjust the transition time inside this comp in the first layer's keyframes. After simply extending that comp on the timeline and adding the transition. (All types of them are available in the "Transitions" folder),

6) Adjust sound and end dark fade and click render.

For further editing see the text below.
