is a comprehensive library of 110+ native Blazor components that help you develop stunning, high-performing applications in half the time. From data grids and charts to schedulers and form inputs, every component is fully customizable, accessible, and designed to integrate seamlessly into your projects. Whether you're building dashboards, e-commerce platforms, or management tools, Telerik UI for Blazor simplifies the development process while delivering professional results.

This suite isn't just about components—it's packed with developer-friendly tools like the Telerik REPL for Blazor, Theme Builder for easy customization, and Visual Studio extensions to streamline your workflow. With Design Kits for Figma, you can ensure smooth collaboration between designers and developers. It also includes Document Processing Libraries for handling files like PDFs, Word documents, and Excel spreadsheets so that you won't need third-party tools. Backed by world-class technical support, free online training, and extensive documentation, **Telerik UI for Blazor** empowers you to focus on what you do best: building amazing apps.

Designed for cross-platform compatibility, **Telerik UI for Blazor** supports multiple .NET versions and runs on Windows, macOS, and Linux. It meets WCAG, Section 508, and WAI-ARIA accessibility standards, ensuring your apps are inclusive and user-friendly. With built-in themes (Default, Bootstrap, and Material) and customization options, you can create apps that look great and perform exceptionally well—all while saving development time and cost.

Key Features of **Telerik UI for Blazor** :

1. **Extensive Component Library:** Over 110 customizable and accessible components, including data grids, charts, schedulers, and form inputs.
2. **Document Processing Libraries:** Handle popular file formats like PDF, Word, Excel, and more without third-party tools.
3. **Design Kits for Figma:** Pre-built UI Kits for seamless designer-developer collaboration, aligned with Default, Bootstrap, and Material themes.
4. **Telerik REPL for Blazor:** A browser-based environment for testing and sharing Blazor code snippets.
5. **Theme Builder:** Effortlessly create and customize themes to align with your brand.

6. **Accessibility Compliance:** Meets WCAG, Section 508, and WAI-ARIA standards with built-in keyboard navigation.
7. **Cross-Platform Support:** Compatible with Windows, macOS, Linux, and multiple .NET versions.
8. **Rich Developer Resources:** Includes detailed documentation, demos, code samples, and knowledge bases.
9. **Free Online Training:** Available for trial and licensed users to get up to speed quickly.
10. **World-Class Support:** Professional assistance to solve challenges fast and efficiently.
