AEJuice Slides – Vintage Collection: Slides Vintage Collection Vintage Collection is a slideshow maker tool featuring revolutionary technology for music recognition and an award-winning design.

What is the time frame to put together slideshows?

After editing, animation, and filming, it can take 2-4 weeks.

Do you create it for clients? You can add 3-4 additional stages of revisions.

Slides have revolutionized the game forever. Now, you can make a flawlessly edited slideshow in under a minute!

This isn't your standard, all-size-fits-all slideshow from the stock slideshow.

Slides can analyze your music and provide the most appropriate images and videos to utilize.

After that, you must choose a folder to store videos and images. The plugin will take care of the rest: edit your animations to be in tune with your music, place the auto-resized images inside placeholders, and present your slideshow on silver plates.

Do you need more control? You got it.

You can change the order of pictures and videos. You can also change any missing slide after the slideshow has been made. The slideshow is entirely customizable. The composition will come with layers, pre-comps, and controls. Similar to what you would get could be created by hand.

Did the client alter the music in the final second? This is not an issue. Rerun, the slideshow creator, to make a new slideshow.

There are over 1,000,000 combinations of unique combinations you can make.

Let's design your slideshow together.
