Other　　平面设计

Color Finale(r) 2. It is an extremely powerful application that offers professional, fully-featured tools for color grading for Final Cut Pro

Speed

Color tools that are fine-tuned and simplified UI to speed up color grading workflows when compared with Final Cut Pro standard color tools.

Efficiency

Save your project within Final Cut Pro for all the color grading and editing needs you require. There is no round-tripping needed

Image Quality

Be aware of color management or image compression issues that can cause degradation of images between editing and Grading systems

Value

Image processing and analysis tools are available - you don't need to buy additional plugins
