Photoshop For Social Media – Step By Step: I'm Gabriel Felix. Today you'll learn helpful tips and tricks for editing and modifying photos on your Social Media profiles like a professional using Adobe Photoshop.

I am teaching more than 50 thousand students on various online platforms taking my classes.

In this course, I will show you how to create social media art in photoshop. Step-by-step instructions!!

There are lessons like:

- Create thumbnails and covers for Facebook videos, YouTube, and many more.
- How to make use of Smart Objects to easily replace images.
- How to use the use of gradients and colors.
- Get to know these intelligent objects and why they can change your work.
- Learn to make brush patterns. This is an advanced technique.
- Understand the most crucial tools in Photoshop.
- Photo Editing for Social Media.
- As well as a few other classes.

When you enroll in the course, students will create, step-by-step, more than 12 projects that will be used in social media Designing and practicing simultaneously!

It doesn't matter which photoshop version you are using.
