How To Install Lightroom Presets

- 1. Download the .lrtemplate files in the designated folder on your computer. Your presets will arrive compressed into a zip file so you will need to unzip them. The presets will not install as a zip file.
- 2. In this folder you will find the presets, they are the files with the .lrtemplate extension
- 3. Open Lightroom 4-5.
- 4. Choose Edit>Preferences.
- 5. There will be a new window that appears. There will be several tabs at the top of the new window. Select the Presets tab.
- 6. Click on the button labeled Show Lightroom Presets Folder.
- 7. There will be a new Explorer window that appears. Choose the folder named Develop Presets. Copy the downloaded folder with your presets into the Develop Presets folder. It is recommended that you copy the preset folder to this new location rather than moving it from its original location.
- 8. Simply restart Lightroom and that's it. Your presets can now be found in the Presets section of the Develop module of Lightroom

What is Boho Wedding Mobile & Desktop Lightroom Presets?

"Boho Wedding Mobile & Desktop Lightroom Presets" is a type of digital photography enhancement tool that you can use with Adobe Lightroom, a popular photo editing software. These presets are designed to give your wedding photos a Bohemian or boho-inspired look and feel. They typically include a set of pre-defined settings that you can apply to your photos with a single click, saving you time and helping you achieve a consistent and stylized look for your wedding photography.

Boho wedding presets can include adjustments to various aspects of your photos, such as color tones, contrast, saturation, and more, to create that specific Bohemian aesthetic. These presets are often available for both mobile and desktop versions of Adobe Lightroom, making it convenient for photographers to edit their photos on various devices.
