Beat Batter Drums From The Crypt (WAV):

Drums From the Crypt is a collection of drum sounds that capture the warmth of the 70's and grungy sounds of the 60's and cryptic dirty vintage tones. We challenged the limits of this set by testing various structures to get real reverb, and even depth on only a handful of shots. One of these locations is the zoo's old enclosures located in Los Angeles. Strange and original loops coupled with psychedelic, grimy vintage sounds is the thing that makes "Drums From The Crypt" its uniqueness. - Beat Batter
