How to Animate an Urban Rain Painting in Adobe AE: Learn to make a stormy urban rain effect using innovative animation techniques using Adobe After Effects!

In this class, I'll guide you through the process of animating step-by-step as we will add unique and eye-catching animations to your scenes.

Follow along with the painting of Basem Salah. We'll create special effects like heavy rain and floor ripples that are wet bounces, water splashes, and lightning flashes, all from scratch.

The techniques are flexible and easily applied to your digital art or photographs. This course suits designers and artists, no matter how experienced or just beginning to learn about After Effects. After the course, you'll have a more excellent knowledge of the tools you'll need to create a rainy urban painting using Adobe After Effects.
