Crehana – Professional Maternity Photography:

Requirements:

- Software: Adobe Photoshop
- Equipment: Tripod with support (giraffe), fan, models (preferably mom with partner and newborn), assistant.
- Lighting Gear: 1 octabox, two vertical strips
- Backgrounds: Cardboard backgrounds
- Camera: Photographic camera

About the Course:

Explore the artistry of Fine Art Maternity Photography with a focus on preparation, composition techniques, lighting, fabric, costume use, poses, and post-production editing in Adobe Photoshop.

Introduction:

- Much more than a memory
- It's not a photo; it's art!
- Challenge the limits of imagination.
- Break 1: Why did you decide to dedicate yourself to photography?

Pre-Session:

- Know the client
- Preparation guide
- Workflow: Order defines everything
- Ideal time
- Contract yes or no?
- Break 2: What has been your favorite project?

Fabrics, Costumes, and Other Accessories:

- Choice of fabrics and costumes
- Do you need an assistant?
- Break 3: How did you develop your style?

Aesthetics and Equipment:

- Aesthetics of the pose
- Vertical vs horizontal
- What should your studio and equipment be like?
- Break 4: How did you find your style?

Sessions, Poses, and Lighting:

- Pose with moving fabric for mom and baby 1
- Pose with moving fabric for mom and baby 2
- Pose with moving fabric for pregnant
- Lighting for couples and couples posing
