TwitBot Pro v2.3.6

2025-01-02 10:28:59

TwitBot Pro is the ultimate solution for automating your Twitter engagement and maximizing your visibility on the platform. With its robust features, **TwitBot Pro** streamlines your Twitter marketing efforts, allowing you to increase interactions and followers effortlessly.

One of its key features is the Auto Follow/Unfollow capability, enabling you to extract lists of Twitter users and automatically follow them, expanding your network and boosting your visibility. Additionally, TwitBot Pro empowers you to automate comments, likes, and retweets on posts from other users, facilitating interaction and enhancing your presence on Twitter.

Moreover, simplifies direct messaging by allowing you to send bulk DMs to your followers with just one click. This feature enables efficient communication and engagement with your audience, ultimately driving greater visibility and fostering stronger connections on Twitter. The Twitter Scraper feature also empowers you to extract valuable data, such as followers, following, and users who have liked a post, further enhancing your marketing insights and strategy.

Key Features of **TwitBot Pro**:

1. Auto Follow/Unfollow: Automatically follow users to increase interactions and followers.
2. Auto Comments / Retweet: Send automatic comments, likes, or retweets to enhance visibility and engagement.
3. Send Bulk DM to followers: Streamline communication by sending messages to all followers in one click.
4. Twitter Scraper: Extract valuable data such as followers, following, and users who have liked posts for enhanced marketing insights.
