# Estrattoredati Tripadvisor Extractor Pro v2.4.0

2026-04-09 10:03:33

TripAdvisor is the largest travel site in the world, which is full of reviews, ratings, and information about hotels, restaurants, tourist attractions sites, and so on. **Estrattoredati Tripadvisor Extractor Pro** is the best tool when you require gathering such type of information within a short time. It enables you to scrape TripAdvisor data within a few clicks and save the data in formats such as Excel, CSV, or TXT files.

The **Estrattoredati Tripadvisor Extractor Pro** is easy to navigate: choose the country, then the category (Hotels, Restaurants, or Things to Do), and then enter the location. The program will go out there and find and record valuable information like business names, addresses, reviews, phone numbers, emails, and even photos automatically. This is so that you will not need to hand-copy information in TripAdvisor.

After gathering the data, it can be exported to a file of your preference. This makes it simple to organize, analyze, or use it in marketing, research, or even trip planning. This extractor saves time and effort, whether you are a travel agency, a marketer, or just need well-structured information.

## Key Features of **Estrattoredati Tripadvisor Extractor Pro**:

1. **Easy Installation & Setup:** Install on a Windows PC and start extracting within minutes, no technical skills needed.
2. **Region & Language Selection:** Choose your country/region and get TripAdvisor in the right language automatically.
3. **Category & Location Targeting:** Extract data from Hotels, Restaurants, or Things to Do by entering a specific city or destination.
4. **Comprehensive Data Extraction:** Collect business name, location, reviews, ratings, phone numbers, emails, and photos.
5. **Automated Scraping Process:** The software handles everything for you — from search results to internal page details.
6. **Flexible Data Export:** Save extracted data as CSV, Excel, or TXT files for easy use in research, marketing, or analysis.
