Requirements

- It is recommended that you have some understanding of Photoshop and the ability to use a graphics tablet (e.g. Wacom Intuos, etc)
- Beginning to Intermediate

Description

It begins as a sketch that has some real-life photos on the other side. It's this is not a picture of a werewolf. Of certain dogs. It is then shown how fun it is to come up with a wildly imaginative illustration of a fictitious animal that is crazy... But, also, demonstrate how difficult it is to turn it into something that is acceptable for the artist if you take that route. It's a fun exercise and you'll witness me battling with a couple of points before I finally decide where I would like to go with this particular image. I think it's important to let this information out since I've met numerous artists who hit these snags when the artwork isn't right for them. They then stop. Don't stop! Find alternative routes! The reward can be huge.

This course is intended for:

- Anyone who is interested in learning how to increase their drawing skills?

INCLUDED FILES

- 1 - Introduction
- 2 - Starting with the small 14 Spatter Brush in Photoshop
- 3 - Getting started Doodle some details warm-up
