

Aescripts Magic Switcher v1.4 (WIN+MAC)

2025-02-10 16:52:03 label 我要反馈 下载页面

Magic Switcher Magic Switcher lets you turn off and on Layer Effects, Styles, and Adjustment Layers with just one click.

Magic Switcher Magic Switcher enables you to adjust your style of the scene to perfection without having to think about how it might affect the animation process!

Gfx plugin details of Aescripts Magic Switcher v1.4 (WIN+MAC)

The product is in **After Effects Plugins category from AeScripts**, for more information about this post you can click on the home page link in the sidebar.

Does this product work on Windowns and Mac Os? We mostly include the operating system in the title. if it is not written, it will work on Windows, and you can contact us for the Mac version.

You can alter your scene to get the ideal look. And when you're happy with the final result and are is ready to begin the animation, just switch off all effects with just one click.

You can now create the animation and you'll be able to do it quickly.

When you're finished with the animation, turn off the layers and effects, and voila! Your gorgeously rendered animation is ready to render.
