AVSPEED iConfRTC SDK for .NET v1.0.1.18 Winforms & WPF (x64 & x86)

2026-10-04 21:24:51

The iConfRTC SDK is intended to help developers readily produce WebRTC allowed desktop-based programs.

Produce Video Chat software using .NET with only a couple of lines of code.

The iConfRTC SDK is a .NET SDK that lets you easily generate video chat empowered applications or incorporate video chat capabilities into existing desktop (and shortly mobile) software, utilizing WebRTC.
