Lightroom Workflow for Wedding Photographers: Organize, Edit & Deliver In Style: Elevate your wedding photography workflow with expert techniques in Lightroom. In this class, you'll learn invaluable strategies to streamline your post-production process, saving you valuable time. Discover the secrets to an efficient editing workflow, master photo selection and storytelling, and deliver your images through stunning online galleries.

What You Will Learn:

- Techniques for organizing and managing large volumes of wedding photos using ratings and keywords
- Creating customized presets in Lightroom for a more efficient editing process
- Editing skills to enhance and perfect portrait images, including retouching and masking
- Strategies for delivering impressive galleries that showcase your talent using online platforms like Pixieset and Pictime

Why You Should Take This Class: After a wedding shoot, sorting through thousands of photos can feel overwhelming. This class is for you if you've ever struggled to kickstart the editing process. Mastering Lightroom workflow is crucial for streamlining post-production and saving time. Effective photo selection can shave off work hours, making editing more accessible and efficient. By mastering the skills taught in this class, you'll elevate your work and stand out in a competitive market.

Whether you are an aspiring wedding photographer or a seasoned professional, this class provides valuable insights and practical tips to enhance your photography skills. All you need is photo editing software like Adobe Lightroom, a computer or laptop for editing, and optionally, templates and presets. Join us and take your wedding photography to the next level!
