

LaraSwift SaaS v1.0 Laravel Admin & User Dashboard + CRUD Builder + Stripe Recurring Payment

2024-12-31 13:58:36

LaraSwift SaaS is a strong & protected PHP Backend Option constructed with Laravel for programmers, site owners, and startups that apply User and Admin Dashboard using Stripe Recurring Payment. It includes a set of resources/modules which can save your time and allow you to produce your own SaaS program quickly.

LaraSwift SaaS includes a typical User and Admin Dashboard with Role-Based Access Control (RBAC) that you may use to power your site backend, user management, user registration, login, etc... Additionally, it comes packed with Software as a service (SaaS) features/tools with stripe recurring payment that you can use as a basis for your SaaS program and startup, which need you charging users every day, weekly, monthly, etc... It's so flexible; you can even produce Payment Programs right from the admin panel.
