- Compatible works with Mac and Windows Versions of Lightroom desktop and the mobile version (2021), Camera Raw, and Photoshop (made using Lightroom Classic 10.4, Camera Raw13.4).
- Format XMP for files
- Presets work with Jpeg or Raw files. However, I recommend using Raw files for the best quality and outcomes.
- These presets were created to provide a good base for editing, but we let you adjust your settings when needed. Each image is not identical, and all lighting differs.
- If you wish to use the presets in your Lightroom Mobile application, install them into Lightroom and then sync them with your mobile device.* There are no returns for the "Cinematographe" presets "Cinematographe" preset pack.
