Sketchbook to Style: Discover Your Art Style Through Drawing: Welcome to "Sketchbook to Style," your comprehensive guide to kickstarting a fulfilling sketchbook practice and uncovering your unique artistic voice. A Different Approach to Art

While there are abundant "How to Draw" tutorials online, this course offers something more profound—it's about pushing the boundaries of artmaking. If those other classes are akin to learning technically correct, traditional music, think of this class as learning to play Jazz—it's about self-expression, individuality, improvisation, and, above all, style.

As Pablo Picasso famously said, "Style is the difference between a circle and how you draw it." This course isn't about teaching you specific techniques but guiding you to discover your style.

What to Expect

Embark on a step-by-step journey through your sketchbook, exploring tools, conquering the blank page, and delving into self-discovery. This isn't just about drawing; it's about developing a creative habit for life. Whether you're a seasoned artist or a self-professed non-drawer, this course will help you find your artistic style and voice.

How Sketchbooks Aid Discovery

Sketchbooks are a gateway to intuition, letting you shed worries and embrace the joy of drawing. Filling your sketchbook with ideas, memories, daily observations, and imagination will visually represent your mind and heart. This process will unlock your unique style and transform your drawing experience.

Course Contents:

- Ten modules featuring 40 videos covering artistic style, creativity, mindset, and drawing for discovery.
- Sixty drawing assignments are provided as a PDF download, meticulously crafted to nurture your artistic style.
- Guidance on experimenting and refining the 7 Visual Elements of your artistic style.
- A Sketchbook Assignment Checklist to track your progress and maintain momentum.
