

## AEJuice – Audio Visualizer for AE & PR

2025-02-10 16:53:03    [label](#)    [我要反馈](#)    [下载页面](#)

**AEJuice – Audio Visualizer for AE & PR:** Audio Visualizer can be described as an After Effects template that you can use to advertise your song through YouTube, Vimeo, Instagram, and other social media platforms.

### How to change colors, fonts, and sizes according to your brand through templates in After Effects?

You can use "AEJuice – Audio Visualizer for AE & PR" to design templates in the style you like.

### Where can I download the product?

After subscription, You can download it for free from here.

The template has a contemporary style with a Beat Synced Audio Spectrum.

You can easily alter the colors, fonts, and sizes to fit your branding.

Audio Visualizer also works with After Effects and Premiere Pro, making it an excellent option for music producers and DJs.

It can be used with any music.

To speed up rendering, we recommend After Effects over Premiere Pro.

- Drag N Drop
- It's a simple interface that works precisely as you'd want.
- AEJuice Pack Manager
- Fast download, preview import, favorites, and so much more!
- Any Resolution Support
- Auto-adjustment to vertical, square, horizontal resolutions, and everything in between. Mobile or desktop? We've got you covered.
- Supported up to 4K
- High-quality effects and footage to use in your projects.
- Supported up to 4K
- Any Language Support
- It is possible to use any language in scenes of text
- Works with any font.
- AEJuice automatically installs the fonts used in most animations, but you can choose any font you want.
