G-Presets: Deidre and Jon offer a stunning collection of tools designed to evoke rich film photography aesthetics, emphasizing authenticity and emotion.

How to edit your images using Hanover presets in Lightroom?

You can use "G-Presets: Deidre and Jon" to edit your pictures beautifully.

The presets preserve true-to-life tones and are versatile, capturing cinematic moments or invoking nostalgia. The pack includes 10 color presets, 2 black-and-white presets, and 22 additional tools, all aimed at enhancing the editing experience with one-click Lightroom tools. Each preset maintains natural skin tones while emphasizing other elements, creating a nostalgic film-like quality. Compatible with specific versions of Lightroom and Adobe Camera Raw, these presets are meticulously crafted to deliver beautiful, emotion-filled photographs.
