

Progress Telerik UI for WinUI 2024 Q4 v2.11.0 (11 Nov 2024) Retail Version

2025-03-11 09:40:36

is a set of tools that aims to provide developers with amazingly fast and easy ways to build modern, high-performance Windows applications. Built for WinUI 3, it provides a rich set of feature-rich and customizable controls with a sleek, fluent-inspired design. You can build your apps that look great and perform exceptionally well, with built-in accessibility, support for the MVVM (Model View ViewModel) architecture, and compatibility with Windows 10 devices.

This UI suite simplifies development with intuitive APIs, comprehensive documentation, and Visual Studio integration. It includes document processing libraries for popular formats such as PDF, DOCX, XLSX, etc., so you do not need to rely on thirdparty applications to deal with document tasks. Telerik UI for WinUI provides the flexibility and features to build complex dashboards, dynamic data visualizations, or user-friendly forms.

Telerik UI for WinUI features all the same aspects of app development, from interactive DataGrids and Charts to touch-friendly controls and advanced navigation elements. It also offers world-class technical support so you don't get stuck when building your projects. Seamlessly executed with a modern design, it is a perfect app for creating next-level Windows desktop apps.

Key Features of Telerik UI for WinUI :

- Rich Component Library:** A wide range of customizable controls, including DataGrids, Charts, Gauges, and more, for building professional-grade apps.
- Fluent-Inspired Design:** Modern UI with built-in support for light and dark themes to maintain a consistent look and feel.
- Document Processing Libraries:** Built-in support for managing PDFs, Word documents, Excel files, and other formats, eliminating the need for third-party tools.
- Intuitive API and MVVM Support:** Easy-to-use APIs and full compatibility with MVVM make development faster and more organized.
- Accessibility and Localization:** Built-in accessibility features and localization support to ensure inclusivity and adaptability for global audiences.
- Cross-Device Compatibility:** Touch-enabled controls allow your apps to run seamlessly on over 1 billion Windows 10 devices.
