TEC-IT TBarCode Office (Microsoft Office Barcode Add-In) v11.1.0 for Excel & Word

2026-04-08 07:44:45

TEC-IT TBarCode Office is the most incredible product that allows one to directly generate barcodes in Microsoft Word and Excel. In a couple of clicks, you can add professionally-built barcodes to your documents, labels, spreadsheet, or catalogs on the other hand, without any technical background. The add-in is part of the Microsoft Office environment, and thus, everything seems natural and easy to use.

This is a free tool that has more than 100 barcode variants, such as the most common ones, such as QR Code, Data Matrix, PDF417, EAN, UPC, GS1 barcodes, and most postal codes. All barcodes are configured based on industry standards, i.e., even a beginner can create precise, ready-to-scan codes without having to do any manual configuration or use any special fonts.

Any barcodes that are produced using **TEC-IT TBarCode Office** are of high quality and can be printed on any printer with no additional hardware or extensions. You need to construct reports, make mail merge documents, and design product labels. TBarCode Office is a reliable and scalable solution for rapid and precise barcode printing.

Key Features of **TEC-IT TBarCode Office**:

1. **Easy Interface** – Insert barcodes into Word or Excel with just a few simple clicks using preset barcode styles.
2. **Mail Merge Support** – Add barcodes automatically inside Word serial letters; merge fields can be included in the barcode data.
3. **Excel Cell Linking** – Convert cells or entire columns into barcodes instantly, perfect for lists, catalogs, and product sheets.
4. **Supports 100+ Barcode Types** – Includes linear, 2D, GS1, and postal formats such as QR Code, Data Matrix, PDF417, EAN, and more.
5. **Fully Customizable** – Adjust barcode size, colors, rotation, fonts, bar ratios, alignment, and other visual settings as needed.
6. **Works on All Printers** – Generates barcodes that print correctly even on standard office printers—no special fonts or hardware required.
7. **Compatible with Modern Office Versions** – Works with Microsoft Office 2007, 2010, 2013, 2016, 2019, and Microsoft 365.
8. **High Print Quality** – Creates sharp, precise barcodes even at low-resolution outputs like thermal transfer printers.
9. **Automatic Check Digit Calculation** – Ensures accuracy by calculating check digits automatically, unlike basic barcode fonts.
