

Devart Oracle Data Access Components (ODAC) v12.0.2 (09 Dec 2021) for Delphi 10.4 -11 Alexandria Retail

2025-10-17 09:42:27

Oracle Data Access Components (ODAC) is a library of components that offers native connectivity to Oracle in Delphi and C++Builder, such as Community Edition, in addition to Lazarus (and Free Pascal) on Windows, Linux, macOS, iOS, along with Android for both 32-bit and 64-bit platforms. The ODAC library is intended to help developers develop quicker and more native Oracle database software.

ODAC, a high speed, and feature-rich Oracle connectivity alternative, would be an efficient native option to the Borland Database Engine (BDE) and regular dbExpress driver. It supplies both chances of connection with Oracle through native Oracle data access and immediate access to Oracle from Delphi with no Oracle Client.

ODAC-based DB software is simple to deploy. It doesn't require the installation of different information supplier layers (for example, BDE or ODBC), so they can operate faster than the ones based on standard Delphi data connectivity options. Additionally, ODAC offers an extra chance to utilize Oracle directly through TCP/IP without requiring Oracle Client.

版本列表

- Devart ODAC Pro v10.1.5 for D6-D10.2 Tokyo Full Source
- Devart ODAC Pro v10.3.9 (21 Jan 2019) for XE-D10.3 Rio Retail
- Devart ODAC Pro v9.3.8 Full Source
- Devart Oracle Data Access Components (ODAC) v11.3.2 (14 Sep 2020) for D10.4.1 Sydney Retail Full Version
- Devart Oracle Data Access Components (ODAC) v11.4.1 (02 Mar 2021) for D10.4 Sydney
- Devart Oracle Data Access Components (ODAC) v12.0.2 (09 Dec 2021) for Delphi 10.4 -11 Alexandria Retail
- Devart Oracle Data Access Components (ODAC) v12.0.2 for Delphi 13 Florence Full Source
