Bondware Poser PRO: Introducing Poser 13, the latest 3D character design and animation software pinnacle. This cutting-edge release empowers artists, illustrators, and animators with a robust toolset to breathe life into their creative visions.

Poser 13 presents a wealth of new features and improvements, simplifying the creation of breathtaking 3D artwork. Its redesigned user interface prioritizes an intuitive and streamlined workflow, freeing users to concentrate on their creative process without being weighed down by technical intricacies.

A standout feature is the introduction of the SuperFly rendering engine, which delivers unprecedented realism and detail in final renders. SuperFly enables lifelike lighting and shadow effects that add a remarkable level of authenticity to characters and scenes.

Poser 13 boasts an extensive library of pre-built content spanning characters, clothing, props, and environments. These assets are easily customizable to meet specific needs, or users can create entirely new assets from scratch using the powerful built-in tools.

Additional features include enhanced posing and animation tools, advanced rigging options, and compatibility with industry-standard file formats like FBX and OBJ.

Benefit from the expertise of the dedicated support team, always ready to assist you. Try Poser 13 risk-free with a 21-day full-featured free trial.

Embark on your creative journey—acquire Poser 13 today and unlock the full potential of your imagination!

Explore the enhanced features in Poser 13:

- **Revitalized SuperFly Render Engine:** Harnessing the latest open-source Cycles engine, the updated SuperFly render engine delivers impressive GPU renders of intricate scenes in less than half the time required by Poser 12.
- **Expanded Post FX Options:** Elevate your rendered images with new Post FX options, including denoise, exposure, saturation, gamma, brightness, contrast, bloom, blur, and pixelated.
- **Optimized Animation Rendering System:** Experience improved productivity when rendering movie sequences with the updated animation rendering system.
- **Remote GPU Rendering with Queue Manager:** Utilize GPU rendering on remote nodes through the Queue Manager, enabling the establishment of a robust render farm on your local network.
- **Innovative App Launcher:** Benefit from the convenience of a new app launcher featuring Recent and Start-Up scene templates.
- **Enhanced Walk and Talk Designers:** The Walk and Talk Designers have been updated for enhanced compatibility with all figure types and support for imported libraries.
- **Improved Adaptive Sampling:** Achieve faster renders with the improved adaptive sampling feature.
- **Intel Open Image Denoise (OIDN) Advancements:** The Intel OIDN now utilizes AI to enhance SuperFly renders effectively.
- **HDRi Environment Rendering:** SuperFly now supports HDRi environment rendering, contributing to more realistic scenes.
- **Shadow Catcher and HDRi Environments:** Enjoy an enhanced shadow catcher and included HDRi environments, creating lifelike 360-degree VR-like environments within Poser.
- **Streamlined Morph and Weight Map Copying:** Creating clothing is now more efficient with the improved morph and weight map copying system.
- **Efficient Installer:** The installer has been streamlined to less than a quarter of the size of the previous version, ensuring a more efficient installation process.

Software

- **Improved Content Delivery:** Poser's content library now facilitates one-click installation of included and stored assets, featuring over 25 GB of updated and reorganized content from Poser versions over the years.
- **Upcoming Mac Version:** Anticipate a Mac version soon featuring Metal GPU support and compatibility with M1/M2 through Rosetta.
- **User-Friendly Online Help System:** Access a new online help system in your web browser, complete with translation options and bookmarks.
- **Downloadable PDF Manual:** Enjoy the convenience of an offline PDF version of the manual for comprehensive reading.
- Poser 13 introduces groundbreaking features, optimizing your 3D design and animation experience with efficiency and creativity in mind.

Poser 13 brings back familiar features and enhancements to ensure a seamless experience:

- **Firefly Render Engine:** Retaining the Firefly render engine ensures compatibility with scenes from previous versions, maintaining continuity in your creative projects.
- **Diverse Render Modes:** Explore powerful non-photographic render modes, including Cartoon, Comic Book, and Sketch Renders, for varied artistic expressions.
- **Updated Python 3 API:** The Python 3 API has been updated, offering more versatility for scripting and customization.
- **SuperFly Shadow Catcher and Background Transparency:** Benefit from SuperFly shadow catcher objects and background transparency options for enhanced control over your scenes.
- **Material Manager:** Quickly and intuitively copy materials using the Material Manager, streamlining the creative process.
- **Continued Figure Support:** Poser 13 maintains support for LaFemme and L'Homme figures, ensuring compatibility with existing character assets.
- **HiveWire3D's Dawn and Dusk Update:** SuperFly materials for HiveWire3D's Dawn and Dusk have been updated, providing enhanced rendering capabilities.
- **Control Handles:** Interactive control handles enhance the posing and animation process, making it more intuitive and user-friendly.
- **Improved Library Search:** Easily locate internal and external content with the improved Library Search feature.
- **Render Layers for Firefly:** Benefit from the inclusion of render layers for the Firefly render engine, offering more flexibility in the rendering process.
- **All Former Pro Options Included:** Poser 13 includes all former Pro options, ensuring a comprehensive suite of tools for users.
- **21-Day Full-Feature Free Trial:** Explore the software's capabilities with a 21-day full-feature free trial, allowing users to test its functionalities before making a commitment.

Poser 13 seamlessly integrates new and returning features to provide a versatile and user-friendly platform for 3D design and animation.
