Janus GridEX 2000 v2.0.0.2355 ActiveX

2025-02-13 10:51:21

Janus GridEX 2000 is a powerful program that allows you to create apps with Microsoft Outlook quickly.

You can now run the program on the internet after you have designed it.

Each Outlook-style component can be customized and edited.

This program allows the programmer to create their own restrictions and conditions and conditional commands for different software groups.

Janus GridEX 2000 Great Features:

- Convenient and easy interface
- Create different tabs
- Custom output control
- Creating different styles
- Networking desired
