Tools   Applications
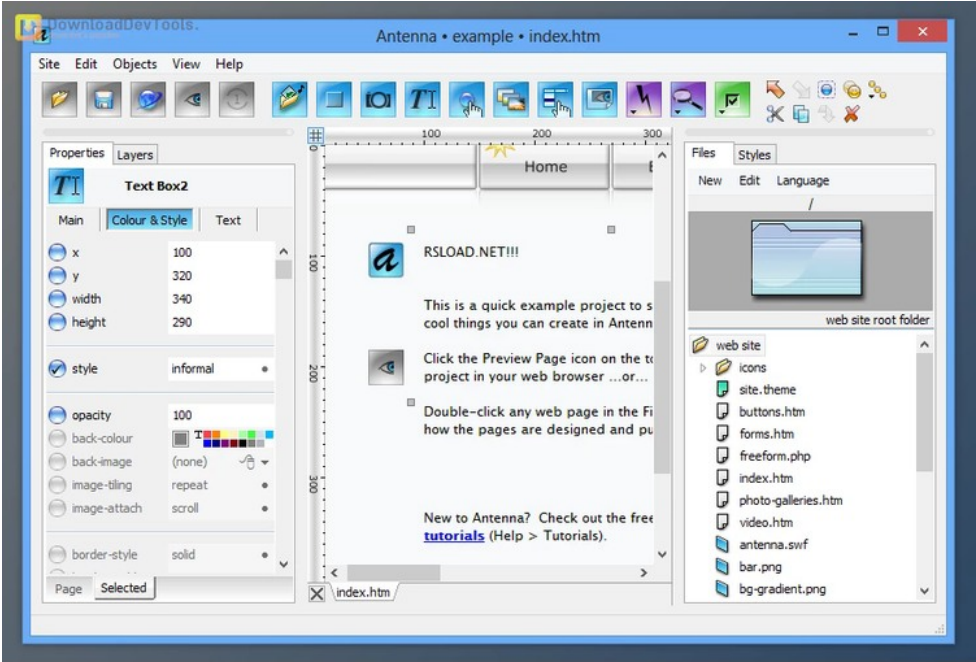

Antenna Web Design Studio lets you build beautiful, professional websites quickly and effortlessly. Even if you don't know HTML, you can drag and drop text, images, buttons, animations, and videos exactly where you want them, and they'll appear perfectly in the web browser. The software is designed to handle both desktop and mobile layouts, so your website will look great on any device. Plus, when it's time to publish, Antenna's built-in publisher allows you to make updates fast without needing any extra tools.

includes powerful tools to help you design your site, such as the ability to create photo galleries, stylish buttons, and gradient backgrounds—all within the software. Its layered system makes organizing your content easy, and you can overlap elements or adjust their transparency for visual effects. The software also supports adding audio and video files to enrich your website with multimedia content.

For those who want to customize their site further, **Antenna Web Design Studio** lets you add custom HTML and JavaScript. Creating multilingual websites from a single design is also easy, making it perfect for businesses looking to reach a global audience. Antenna is user-friendly, with tutorials, an illustrated guide, and free tech support, even for beginners.

Key Features of **Antenna Web Design Studio** :

1. Visual Editor: Drag-and-drop design with pixel-perfect accuracy, no coding required.
2. Graphics Tools: Create photo galleries, buttons, and gradients easily with built-in tools.
3. Layer System: Organize content with layers, adjust transparency, and overlap items for creative designs.
4. Include Pages: Reuse content across multiple pages with instant updates to save time.
5. CSS Styles Editor: Quickly apply style changes across your whole site with the built-in CSS editor.
6. Special Effects: Add shadows, reflections, and other visual effects without code.
7. Multimedia Support: Easily embed audio and video files in formats like MP4, MP3, and YouTube.

8. Easy Publishing: Integrated FTP publisher with a 'publish changes only' option for faster updates.
9. Multilingual Support: Manage text and images in multiple languages from a single design.
10. Custom Code: Add HTML and JavaScript for advanced customization.
