The Template was designed to work with Ableton Live 10.1, using only the Xfer Serum v1.214 (or higher) VST plugins. In addition, it uses Stock FX and Stock Instruments. Techno Style samples for beginners include the full arrangement Beat. They are thoroughly mixed, mastered, and ready to download and begin playing!

The project includes The Midi and Serum Presets folders that can be used in conjunction with other DAW such as FI Studio, Logic Pro, and more!

Recommendations: If you encounter any issues with your CPU, We're using a third-generation Intel i7 at around 10 percent, so be sure to utilize Ableton's freezing feature and resampling technique when you're experiencing issues operating the program.
