Stockpresets – Lightroom Collection – Film Retro: This Retro Film Collection is for those photographers who prefer a retro analog style in Lightroom. Each preset was designed to produce stunning film styles for modern photographers. Make your workflow easier with presets and get more flexibility and control using our customizable profiles. It is compatible With Lightroom, Lightroom Classic, and RAW.

We've designed each preset to work with our vibrant color profiles. Enhance and reduce the appearance of your images by shifting the dial in and out to get the right amount of hue. You'll have more control and flexibility over editing your images with Lightroom, Lightroom Classic, and Adobe Camera Raw. It is compatible With Lightroom, Lightroom Classic, and ACR.

Lightroom Presets and Profiles

Retro Film Collection Retro Film Collection is for those photographers who prefer a retro analog look using Lightroom. Create stunning film-inspired looks using more than 86 presets, profiles, and profiles for different types of photography. This collection is ideal for landscape, portrait streets, travel, and landscape photography. Every profile and preset has been designed with care to create stunning film-like looks for the photographer of the present. Use our customizable profiles to make your workflow easier with presets and enjoy greater flexibility and control. Compatible with the most current version of Lightroom, Lightroom Classic, and Adobe Camera Raw.

Lightroom Compatibility

Stock Presets work with the most recent versions of Adobe Lightroom (Cloud-based service), Lightroom Classic, and Adobe Camera Raw. Attention: Lightroom CC 4-6 (2015) is incompatible with Lightroom Profiles. The presets we have added are .lrtemplate presets for those using the previous version of Lightroom. The .lrtemplate presets do not have support for Lightroom profiles.

What's Included?

- The stock Presets collection contains more than 86 Lightroom profiles and presets in .xmp format.
- Compatible with the most recent versions of Lightroom (Cloud-based cloud-based service) Classic and ACR.
- Presets can be used using JPEG & RAW photos in Lightroom.
- Compatible compatible with MAC and PC desktops.
- Instant download after purchase.
