Passive Income : Create A Digital Planner To Sell On Etsy: Have you ever been fascinated by the world of digital planning and its endless possibilities, only to struggle to find comprehensive tutorials on creating one from scratch? I feel you. Digital planning has been a game-changer, offering unparalleled customization and a deeply personal touch.

In my latest video, I share my journey of crafting digital planners using Keynote, starting from scratch on my iPad without relying on templates. It's not just a hobby—it's a transformative process that allows you to tailor planners for personal use or even turn them into a passive income stream on platforms like Etsy.

To embark on this creative venture, you only need an iPad, a stylus, and a PDF reader (I prefer GoodNotes, but any PDF reader works). This class covers a range of exciting topics, including:

- **Creating Backgrounds & Covers:** Dive into the art of crafting visually appealing backgrounds and covers featuring stitching effects and unique designs.
- **Clickable Tabs Magic:** Learn the secrets behind coloring tabs and making them clickable, adding a functional and aesthetic dimension to your digital planner.
- **Monthly Planning Templates:** Explore the creation of lined pages, calendars, and tables to structure your monthly planning efficiently.
- **Flipping Page Motion Effect:** Elevate your planner's interactivity with an excellent flipping page motion effect.
- **Crafting Ring Binders:** Discover how to design and incorporate ring binders for that authentic planner feel.
- **Exporting & Integrating with GoodNotes:** Seamlessly export and use your projects in GoodNotes, unleashing the full potential of your digital planner.

As a bonus, the digital planner we create together will be yours to kickstart your digital planning journey—exclusive for personal use.

Who is this course for?

- **Planner Enthusiasts:** If you love planners, this is for you.
- **Entrepreneurs in the Making:** Those seeking to turn their digital planning prowess into a passive income business.
- **Graphic Designers:** Utilize your design skills to create stunning digital planners.
- **Etsy Sellers:** Explore a new avenue for creative ventures on platforms like Etsy.

I can't wait to see the designs you come up with. Share your projects, and let's make this digital planning journey extraordinary! Thank you for joining my class—I hope you find it incredibly useful and inspiring.
