Diffchecker Desktop v7.1.8

2026-07-27 12:36:18

You can use to compare files, text, images, and folders locally, meaning you don't need internet access. Since it operates on Windows, macOS, and Linux without a server, your sensitive data always stays inside your device. Diffchecker helps you easily see any differences in code, legal docs or spreadsheets.

Diffchecker Desktop has a user-friendly design, no ads, and lets you edit at any time. You can highlight alterations, blend your documents, and transfer your outcomes to a PDF file. In addition, it provides a built-in text editor and highlights code for over 20 different programming languages, which makes it ideal for professionals, developers, and users of sensitive information.

Wherever you're working—be it at home, at work, or away—**Diffchecker Desktop** has your back as it doesn't transfer your information online. This solution is best for looking over confidential documents, examining tax documents, reviewing code, or inspecting encrypted files without going online.

Key Features of **Diffchecker Desktop** :

1. **Offline Operation** – Works 100% offline, ensuring your files never leave your computer.
2. **Text Comparison** – Instantly find differences between text or code files, word by word or character by character.
3. **Image Comparison** – Compare photos pixel-by-pixel or overlay two images for clear visual differences.
4. **PDF & Word Support** – Use AI to extract and compare text from PDFs and Word documents.
5. **Spreadsheet Comparison** – Scan spreadsheets cell-by-cell or view them side-by-side for clarity.
6. **Folder Comparison** – See which files are missing or changed inside any folder.
7. **Real-Time Editing** – Make changes on the spot with a built-in editor that updates differences instantly.
8. **Syntax Highlighting** – Supports 20+ programming languages for easier code reviews.
9. **Merge & Export** – Combine changes and export results as PDF or Diffchecker files.
10. **No Ads** – A clean, distraction-free interface to help you focus.
11. **Dark Mode** – Reduce eye strain and conserve battery with a dark theme.

所有软件资源 100%安全 已检测 无病毒 无篡改
