Lizard Labs Report Fabricator v2.0.0

2025-02-04 22:26:18

Report Fabricator provides an easy-to-use report designer using a rich set of elements, such as tables and graphs, so business users can assemble reports and supply information necessary for tracking and making smart decisions.

Report Fabricator is a strong Windows desktop program. We use a contemporary Microsoft Office motivated GUI interface with ribbons designed to simplify how the users create business reports and ensure the very best user experience. Report designer leverages the instinctive nature of a desktop GUI and incorporates a banded report programmer's ability. New Report Wizard makes it possible to construct new reports in a couple of minutes rather than hours. You can also export reports in Excel, HTML, MHT, or PDF files and easily share with utilizing Sharing Wizard.

Lizard Labs Report Fabricator Great Features:

In modern reporting software, it is required to support major data providers. These data providers are available in the Data Source wizard:

- Microsoft SQL Server
- MySQL
- Oracle
- IBM DB2
- Google BigQuery
- PostgreSQL
- Amazon Redshift
- Microsoft Access
- SAP Sybase Advantage
- SAP SQL Anywhere
- SAP Sybase ASE
- Firebird
- MS SQL Server CE
- Pervasive PSQL
- SQLite
- Teradata
- VistaDB

- Microsoft Excel
- Comma-Separated text files
- XML File
