Davigzt – ETERNAL SUMMER – 7 Lightroom Presets: This set of Lightroom Presets was created by the Italian photographer Davide Gazzotti. These presets are perfect for adding stunning pastels and colors to your photos, replicating the photographer's colors.

Here are a few lines of advice about his presets: "These presets are my beginning point for editing every one of my photos. You can adjust the brightness, tint, and white balance for most photos to get the perfect tone.

Begin editing your photos in Lightroom by using this fantastic set of presets:

- 7 Lightroom Presets
- Desktop Compatible (.xmp)
- Phone Compatible (.dng)
- Vibrant Colors
- Magical light
- Every scene is different.

This product works with Lightroom CC, Lightroom Classic CC, and Lightroom for mobile. Lightroom Presets work using RAW and JPEG images (but when using RAW files, it is best).
