FAMILIAL INTERFACE

Font Manager's user interface is quite familiar to anyone who is used in The After Effects Character Panel,, so you'll be able to get started without reading the manual.

SUPPORTS KERNING and METRICS

Automatically analyzes and adjusts kerning and metrics. It is not necessary to alter layers manually.

MULTILINE AND TXT ALIGNMENT

Yes! Finally!

One-click to create A FULLTYPEFACE

Create a solid or shape layer for every character. make copies of the animations and organize these into comps. In addition, you can alter glyph sets.

Unique Parenting Function

Choose the properties you wish to parent, and Font Manager will do the rest! Within every glyph! The properties can be found by name, and the batch parent, or make expressions of them.

SUPER EASY CONTROLLER

Control all characters in one layer, or handle each character individually.

Quick Start ASSISTANT

We will guide you through the entire procedure in just a few minutes (or even minutes) to ensure you don't lose the most important thing.

MANY ADDITIONAL FUNCTIONS

Everything you'll require to set up and to use an animated typeface, such as:

- Offset layers are layered in time
- Change layer order
- Toggle parenting
- Demo all glyphs
- Simple navigation
- and many more.

DOES NOT WORK NATIVELY JSX Typefaces

JSX fonts are a great lightweight format that is a new format for animated typefaces that seamlessly connect into Font Manager.

Word A Week

A week, in a word, is a year-long, creative exploration aided by Animationography. They are inviting a new artist or studio each week of the year in order to make a loop using our animated typefaces utilizing animated typefaces as well as **the Font Manager**.
