MailEnable Enterprise Premium v10.48 (29 Jan 2024)

2025-01-15 23:41:55

MailEnable Enterprise Premium is excited to introduce a groundbreaking addition to its mail server product: a comprehensive Outlook integration component designed to integrate mail, calendars, contacts, and collaboration seamlessly. The new MAPI solution bridges MailEnable server functionalities with Microsoft's Outlook email and office productivity client, offering unparalleled convenience and efficiency. Included in the Enterprise Premium package, this integration complements the extensive features of the Enterprise Edition, providing a unified platform for optimized communication and coordination within businesses.

Experience full synchronization between 's server-hosted calendar, contact lists, and tasks seamlessly integrated with Outlook on desktop computers. Real-time communication ensures that changes made in either Outlook or the webmail client are instantly updated across both platforms, ensuring users have the most current data accessible from any location. Additionally, Exchange ActiveSync support offers unparalleled integration with mobile devices, enabling real-time synchronization of emails, contacts, and calendars, enhancing productivity on the go.

Furthermore, the MAPI connector facilitates easy sharing and collaboration, allowing users to access shared resources like calendars and mailboxes directly from Outlook with flexible permissions settings. The integration extends to mobile management and administration, including a Mobile Web Administration client in **MailEnable Enterprise Premium**. With directory access seamlessly integrated into Outlook's address book and enhanced out-of-office management, **MailEnable Enterprise Premium**'s MAPI connector empowers teams to communicate effectively and efficiently, eliminating communication barriers and ensuring seamless collaboration for business success.

Key Features of **MailEnable Enterprise**:

1. Seamless integration of mail, calendars, contacts, and collaboration with Microsoft Outlook
2. Real-time synchronization between MailEnable server-hosted calendar, contact lists, and tasks with Outlook desktop client
3. Exchange ActiveSync support for seamless integration with iOS and Android mobile devices
4. Efficient "push" technology for real-time synchronization of changes between mobile devices and MailEnable server
5. Simplified sharing and collaboration with easy access to shared resources and flexible permissions settings
6. Mobile management and administration with Mobile Web Administration client included in MailEnable Enterprise Premium.
7. Directory access through Outlook's address book, providing immediate access to company contact lists
8. Convenient out-of-office management directly from the Outlook application, ensuring efficient communication during absences.
