Devart dotConnect for PostgreSQL Professional v9.0.0 (18 Dec 2025)

2026-03-13 15:01:35

is a top-tier ADO.NET provider tailored for PostgreSQL databases, offering robust ORM support and advanced features for application development. Leveraging ADO.NET technology provides a comprehensive solution, empowering developers with innovative designs and streamlined workflows.

With support for PostgreSQL-specific functionalities like secure SSL connections, notifications, and advanced data types, dotConnect for PostgreSQL ensures seamless integration with PostgreSQL databases. Its extensive Visual Studio integration and GUI tools simplify dataset creation and manipulation, accelerating development cycles.

Moreover, **Devart dotConnect for PostgreSQL Professional** maintains broad compatibility across platforms and technologies, from legacy frameworks to the latest technologies like .NET Core and Entity Framework Core. This compatibility ensures developers can easily and efficiently deploy their applications across diverse environments.

Key Features of **Devart dotConnect for PostgreSQL Professional**:

1. Robust ORM support
2. Comprehensive solution for PostgreSQL-based applications
3. Leveraging ADO.NET technology
4. Support for PostgreSQL-specific functionalities
5. Secure SSL connections
6. PostgreSQL notifications
7. Bulk data loading
8. Compatibility with advanced data types like GEOMETRY and PostgreSQL ARRAY

所有软件资源 100%安全 已检测 无病毒 无篡改
