Sonicspore STEPSY Psytrance Lead Lines (MiDi): Introducing StePsy, the cutting-edge MIDI library crafted exclusively for Psytrance music producers. Building on the success of the Sonicspore Arpsy collections, dedicated to melodic psytrance arpeggios, StePsy takes the genre to new heights with original Rhythmic Step&Hold and Lead Line Sequence Patterns.

Designed to accelerate your workflow and spark fresh ideas, StePsy is a must-have for Psytrance enthusiasts. Simply open your DAW, add a MIDI track, load your preferred VST preset, and effortlessly bring your lead lines to life by dragging and dropping StePsy's MIDI clips.

The pack comprises two folders:

Rhythmic/Step & Hold:

- 100 monotone MIDI clips in sixteenth notes, infused with groove, perfect for generating energy and captivating flows in styles like Darkpsy, Twilight, and Forest.
- 2 presets for Vital VST.

Riff/Melodic Lines:

- 50 MIDI clips tailored for creating main themes, transitions, layers, and intricate patterns in Full-On, Progressive, and Psybient styles.

All files are in the key of F but offer easy transposition, thanks to MIDI flexibility. Modify, rearrange, cut, or stitch any file for endless variations according to your creative needs.

Whether you're a beginner or a seasoned professional, StePsy provides a diverse array of high-quality MIDI clips to spark inspiration and overcome creative blocks. Compatible with popular DAWs such as Ableton Live, Cubase, Logic, Fruity Loops, Studio One, Reaper, and more, StePsy also seamlessly integrates with virtual synthesizers like Serum, Vital, Pigments, Sylenth, and Spire.

Inside the StePsy pack:

- 150 Total MIDI Files
- 100 Step & Hold Rhythmic Patterns
- 50
- 4 VST presets
- They are
- Works at any tempo (BPM)
- Customizable files (Transposeable and Editable to any key)
- Drag & Drop MIDI files
- Compatible with any DAW and Virtual Synth
- 100

Experience a smoother workflow and unlock new potential in your Psytrance music with StePsy – get it now!
