

Devart UniDAC Pro v12.0.1 (15 Jun 2026) for Delphi 7 & 11 & 12 & 13 for Delphi 6-12 Athens Retail

2026-06-27 22:24:15

Devart UniDAC Pro is an enterprise-level solution offering powerful functionality at an accessible price point, accompanied by responsive and dependable support. Tailored for developers utilizing Delphi, C++Builder, and Lazarus with Free Pascal, provides direct access to many databases across diverse platforms, including Windows, Linux, macOS, iOS, and Android. Its versatility ensures seamless connectivity and streamlined database switching within applications, enhancing development efficiency.

With comprehensive database support, including Oracle, SQL Server, MySQL, PostgreSQL, and MongoDB, UniDAC Pro boasts server-aware providers that optimize performance by adapting operations to the unique characteristics of each database server. This cross-platform solution supports x86 and x64 platforms and offers compatibility with FireMonkey, enabling developers to create visually striking desktop and mobile applications. Additionally, **Devart UniDAC Pro** features server-independent SQL support for crafting database-agnostic queries, ensuring flexibility and ease of use in application development.

Devart UniDAC Pro prioritizes security with support for secure connections via SSL, SSH, or HTTP/HTTPS protocols through SecureBridge components, providing peace of mind for developers handling sensitive data. Moreover, UniDAC Pro facilitates access to cloud services such as Salesforce, QuickBooks, and Zoho CRM, further expanding its utility and making it an indispensable tool for businesses and enterprises seeking efficient and secure database management solutions.

Key Features of Devart UniDAC Pro :

1. Enterprise-grade solution with affordable pricing
2. Direct access to multiple databases, including Oracle, SQL Server, MySQL, PostgreSQL, MongoDB, and more
3. Compatible with Delphi, C++Builder, and Lazarus (with Free Pascal) on Windows, Linux, macOS, iOS, and Android
4. Seamless database switching within applications
5. Server-aware providers optimize performance for specific database servers
6. Cross-platform support for both x86 and x64 platforms
7. Compatibility with FireMonkey for visually stunning desktop and mobile applications
8. Server-independent SQL support for crafting database-agnostic queries
9. Secure connections via SSL, SSH, or HTTP/HTTPS protocols with SecureBridge components
10. Access to cloud services such as Salesforce, QuickBooks, and Zoho CRM
