How To Create Ai Art With Midjourney: Midjourney is among the numerous AI Art Generation programs on the market. It is among the most potent programs available and is similar in power to The DALL-E. The field of Generative/AI Art is a new, rapidly developing field, and it is a field that should be part of every artist's toolkit.

This course is designed to simplify the process of utilizing text prompts and other parameters to create breathtaking art pieces. This work can be considered the final artwork or utilized in larger projects' concept generation and competition stage.

In this course, I will use an upgraded software version, but it's unnecessary! This course is not limited to taking the trial version for free. The trial, free of charge, only allows you to create your first 200 images, and you can purchase an additional license later if you want to create more images.

The only prerequisite to this course is access to a Discord account and the web. The course also incorporates Photoshop in the final lesson, but it isn't a requirement for the course. Instead, it is an added benefit.

Description of the course:

- Lesson 1 - What's Midjourney? (A guide and an introduction into the application)
- Lesson 2 - Previous work created by Midjourney(This class will examine some of the existing work made using Midjourney)
- Lesson 3 - Making works of art using the Midjourney(In this lesson, we will make use of an prompt function to make the first artwork)
- Lesson 4 - Upscaling Dimensions, Variations, and Upscaling (In this lesson, we will make use of more commands as well as prompts in order to enhance and modify our created artwork)
- Lesson 5 - Ideas for Prompts (This session will provide some additional techniques for creating text prompts)
- The Project Assignment (Assignment) - (This lesson will help you complete the final project you are expected to complete in a way of presenting the skills and methods that you learned during this course.)
- Other Content Additional Content (This tutorial will teach you other tools that you can employ in Photoshop to create or remove the details in your artwork)

In the course outline, the course will conclude with a fun project that will allow you to practice the skills you've learned in this course! I'm eager to see the work you create, so make sure to upload your work!

What you'll discover?

- Find prompts that can be used within AI Art
- Know the procedure for creating AI Art with mid-journey
- Choose additional tools to help you take AI Art to the next step
- Utilize the Midjourneys resource bank in the Discord Server
