" Inspired by the universes of Game of Thrones and Stranger Things "

These presets are suitable for you in the following situations:

- You love cold and dark conditions, but don't know what to do about it.
- You love editing your images, but do not have time for you.
- You don't need standard presets, but rather presets that make you and your pictures stand out from the rest of the pack.
- You're looking to improve your editing speed and master editing like a professional.
- You require inspiration to become more creative and expand your job.
- You're trying to organize your workflow in order to save time.

This pack includes:

- Presets of 63: twelve full presets and 51 presets that can be quickly adjusted to adjust color, tone, presence, Tone curves, vignetting, and color (these most recent presets can be used to swiftly edit any image using any photo style).
- Three photos are free of right to allow you to try out the presets of the pack on my images.
- 10 free smartphone wallpapers.
- A text file that explains how to import your presets into Lightroom.
- A text file that contains guidelines how on how to use these presets correctly.

Compatibility

These preset work for Lightroom Classic (versions 7.3 or higher), Lightroom CC, and Lightroom Mobile (XMP files for desktops and DNG files for mobile devices). These presets can also be used with Camera Raw (Photoshop).

Presets are compatible with Jpeg or Raw files, however, I suggest using Raw files for the highest quality and best results.
