The pack contains 15 presets included in this pack, including four color and black presets making them suitable for nearly all shooting scenarios.

Gold's color is vibrant rich and vibrant, with just the perfect amount of fade which makes them ideal for all shooting situations. This pack is a favorite of the fans and what I refer to as "Old Faithful".

They're easy to use and only require adjustments to the light, shadows, and exposure balance to fit your particular image and preferences. As you can see from the "before" images, I prefer warm photos straight from the camera. I don't even alter the white balance however if you shoot warmer or cooler than I, then playing with it can solve 90% of color problems. TVP Gold 2 is one of my favorite and most utilized presets!
