Eason Studio FastSearch v4.6 for Win x64 Retail

2026-04-08 11:51:28

Eason Studio FastSearch is a quick and efficient desktop utility that is created to assist you in locating information concealed in your files, not in their titles. As opposed to opening documents one at a time, FastSearch can rapidly scan the real contents of numerous file types and allow you to instantly find what you are looking.

It has the support of searching within PDFs, Microsoft Office files, text files, and even compressed archives such as ZIP, RAR, 7Z, and JAR without unpacking. You can navigate through your data with precision with various search options such as simple text, regular expression, XPath, and even byte-level queries. It is easy to filter and get to the very information you want with the help of filters.

The **Eason Studio FastSearch** is also designed to make your task easier by providing integrated text search-and-replace, secure undo, automatic content previewing,g and file operations in the results. You can initiate searches of File Explorer, store your preferred patterns of search, test advanced searches without risk, and choose to work in Light or Dark Mode.

Key Features of **Eason Studio FastSearch**:
