Parallax Illustration: Create Mesmerizing 3D Scenes: Elevate your digital illustrations with Parallax animation and unlock the magic of turning your compositions into captivating three-dimensional worlds using After Effects. I'm Manon Louart, a motion designer & illustrator from France, and in this class, I'll guide you through the essential steps to infuse depth into your designs.

Throughout the class, you'll master:

- After Effect's 3D Tools: Unleash the power of After Effects' 3D capabilities.
- You are creating 3D Shapes: Craft dynamic and engaging 3D shapes to enhance your compositions.
- Building a 3D Scene with Depth: Construct immersive scenes that come to life.
- Animating with Cameras: Learn the art of animation using powerful camera tools.
- Utilizing 3D Effects: Discover the potential of 3D effects to enhance your visuals.
- Applying Retro Analog Styling: Infuse a touch of Retro Analog aesthetics for added flair.

And much more!

I'll guide you through each concept with short animation exercises, building your confidence before diving into the main project. From drawing and organizing your illustration to transforming it into a mesmerizing 3D scene in After Effects and exporting the final result, I'll cover the entire process.

You can follow along with my After Effects project and a handy shortcut cheat sheet in the Resources tab. The ultimate class project will be a looping animated parallax illustration.

This class is perfect for creators with a basic knowledge of After Effects or Intermediate Motion Designers eager to add new tricks to their skill set. Let's embark on this creative journey together, and by the end, you'll breathe life into your illustrations with the enchantment of Parallax animation!
