**Explaining how we use face-tracking in our videos (TikTok Filter) – After Effects:** Face-tracking is an excellent method to give more attention to a person or object. We've used this technique in videos for three years, and it's an extremely well-known TikTok filter too. In this course, we'll tell you all you need to know about how to perform face-tracking in a way that is automatic and frame-by-frame. We will also show you how to integrate face-tracking and an image title.
