Specific Recommendations

To get the most effective results from Photoshop Action, use only high-resolution images. We suggest resolutions of 2500px x3500px pixels, with 300 dpi,(portrait) and solid image in color. This is the most effective.

The Layers Organization

The most appealing aspect of Photoshop Action is the fact that it helps you keep your layers separate. This allows you to work on your image quickly and then further personalize it. Every Photoshop Action has its own layers of the organization.
