Apple macOS Sonoma v14.6.1 (23G93) Multilingual + Hackintosh + VMWare Edition

2026-10-02 23:14:23

Experience enhanced power and enjoyment with **Apple macOS Sonoma**, where work and play on your Mac reach new heights. Elevate your video call presence, access information innovatively, improve gaming performance, and explore a multitude of ways to personalize your Mac.

Enjoy stunning new screen savers featuring slow-motion views of breathtaking locations worldwide. These seamlessly transition into your desktop wallpaper upon login. Add widgets directly to your desktop from the new gallery, including iPhone widgets through Continuity. Widgets intelligently fade when using apps or windows, allowing better focus on your tasks.

In video conferencing, the Presenter Overlay keeps you at the forefront during screen sharing, with customizable overlays for a polished appearance. Easily share apps during calls and control your video composition using Studio Display or iPhone as your camera. Safari introduces profiles for separate browsing experiences, faster and more relevant search, and enhanced Private Browsing. The update also includes new features in messaging, such as catch-up arrows and swipe-to-reply functionality. Additionally, share and view locations seamlessly within conversations. transforms your Mac experience by combining power, functionality, and an element of fun.
