**Top Music Arts Space Motion Epic Ableton Remake:** A disassembled Ableton remake Version of Space Motion's Epic, an excellent track and Template to understand what you need to know about Progressive House, and EDM elements of music production like sub-Bass, Synth Plus, Drum Samples as well as Layers and more.

The Template was designed to work with Ableton Live 10. I utilized the Ableton Wavetable for most of the Instruments, Nicky Romero's Kickstart sidechain Compression VST plugin, and the Stock FX in Ableton Live 10 and Stock Instruments. Progressive House Style samples for beginners, along with complete arrangement Beat. All fully mixed and mastered and ready to download and begin playing it!

Recommendations: If you encounter any issues with your CPU, as we're running the 3rd generation Intel i7 at around 10 percent, so be sure you utilize Ableton's freezing function and resampling methods when you're experiencing issues working with the application.

- Software, DAW: Ableton Live 10 Suite
- VST plugins The only requirement is Nicky Romero's kickstart vst plugin is required
- Song Key: Bb Maj
- Time Length: 7:28
- Genre: Progressive House
- All Drums Samples form are included in this project. You can download them here.
