Other

All these Mood Enhancers waste no Moment Providing images a Magical"je ne sais quoi" quality. With undeniable flexibility, they are A straightforward add-in for teasing out dimension and depth in any edit by Collecting and focusing lighting to key regions of the picture. And since they are readily Moveable, you may quickly manipulate just how and at which the Enhancers put over each picture.

Included are 17 custom made filter presets for Horizontal images and 17 for Vertical pictures (34 total).

Before and after shots below show how impactful they are. Remember, all these are one-click to show you exactly how They control the picture with equal exposure on both pictures.

Please be aware that these aren't color manipulating presets. They're just graduated filters that manipulate light in particular areas of an image. Works using RAW, JPEG pictures in Lightroom 4-Lightroom Classic CC, and Adobe Camera Raw.

**HOW TO INSTALL**

**FOR LIGHTROOM 4-CC AND ADOBE CAMERA RAW**

1. Download the presets to get Lightroom 7.3 and over
2. Find the folder in which the presets downloaded
3. Establish the Adobe Lightroom program That you intend on using
4. Proceed to the Create Module with A picture
5. Click the + icon at the Preset Panel. Select "Import Presets"
6. Navigate to the downloaded Presets folder in step two
7. Click "Import
