This collection is focused on vibrance and color. I created it in order to make your images pop with more depth of color and intensity.

The presets listed here preserve skin tones and can be used on portraits and landscapes.

In this package is an editing tutorial, in which I'll show you how I modify my own images by applying the preset.

As well as the tutorial on editing, I've added the Camera Basics Crash Course where I will go over the basics of camera settings, the rules of composition, and color theorizing.

In this Pack:

- Alive
- Deep Orange
- Deep Orange -
- Moody Shadow Update
- On Tour
- Pacific Updated
- Santa Monica Updated
- Tropics
- Vibes Update
- Film 02
- Sunny Portrait
